

Creating a new icon for Taipei

TAIPEI NANSHAN PLAZA

+ EMOTION

Moving Hearts, Shaping the Future.

Located in the Xinyi district, the CBD and major tourist's destination of Taipei, Taipei Nanshan Plaza stands as the new landmark tower to further attract people from a distance with a human-scale retail podium and cultural hall to welcome them in. By planning the bus terminals and parking in the underground and separating vehicular and pedestrian circulation, the project achieves a pedestrian oriented district. Taipei Nanshan Plaza is designed to be "Queen" to complement Taipei 101 as "King", and create new skyline of Taipei.
